MAC Batch Certified Software Products List

Introduction

MAC Batch Purpose

The Manifest Analysis and Certification Batch (MAC Batch) program is a process designed in cooperation with the mailing industry to evaluate presort/manifest software for accuracy in sorting address files according to Domestic Mail Manual (DMM), and guide to the Manifest Mailing System (Publication 401), standards for varying sized pieces, accuracy of calculated postage for identical and/or non-identical pieces, and utilizing permit imprints. MAC Batch is available only to software developers, i.e., companies that develop presort/manifest software for resale or internal use. Participation in the program is purely voluntary. Although this program evaluates and validates presort/manifest products manufactured by developers, MAC Batch does not guarantee acceptance of mail prepared using MAC Batch-certified software. MAC Batch does provide national approval of computer generated facsimiles of United States Postal Service (USPS) postage statements, standardized documentation, and other presort/manifest documentation.

MAC Batch Overview

The United States Postal Service defines a MAC Batch-certified software product as a presort/manifesting product specifically written to operate on a particular platform or operating system and assigned a specific version number. Many products use different language compilers to process files within different operating systems or on different hardware platforms. Therefore, to maintain the highest quality standards, MAC Batch will certify a developer's product that operates on a particular platform at the current version number. The developer may submit all platforms, or as many as are desired, for certification. MAC Batch will evaluate each presort/manifest product platform on its own merits and will issue a specific certification for that platform if warranted.

At this time MAC Batch will only be testing and certifying First Class Auto Letters and First Class Auto Flats (tray-based), utilizing Permit Imprint only. In the future other presort categories will be added.

Note: Throughout this manual, any reference to a "presort/manifest product" implies a product written for a specific hardware/software platform at the current version number.

Example:

Developer	Presort/Manifest Product	Platforms	Version
Preman R Us	FASTsort	Windows NT for PC	1.2

Company Name:	ANCHOR SOFTWARE LLC	Product Name:	MAXPRESORT		
Address:	ANCHOR SOFTWARE LLC	Product Version:	5.01.029		
City:	PLANO	Date Certified:	4/6/2004		
State:	TX	Expiration Date:	12/31/2004		
ZIP:	75074-8845	Cycle:	A		
Phone:	(469) 467-3869	Ext:		Price Range:	Over \$5000
Fax:	(469) 467-3886	Sales Contact:	GEORGE CORTES
